

5 Lots project

Atop METRO station in Westlake

Recently proposed, a publicly owned property, a METRO station. Plans were turned down as Los Angeles County (LAC) thought there was not enough affordable units, 120 out of 655 high-end housing (HEH) units.

Metro has a number of joint developments in the works now, including one on top of the Vermont/Santa Monica Red Line station, on two blocks at Exposition and Crenshaw boulevards, and at the Little Tokyo/Arts District station.
