People Living in Cars

Occasionally the RVs are associated with drugs and prostitution. They seem to locate near homeless encampments. However that suspicion is not always the case. The one above was the widow of a veteran.

Many people live in RV's. People hold on to cars as the last place of refuge in bad times. The Hollenbeck LAPD has a map where these RV's can park. The Red lines indicate No Parking anytime. The Yellow lines are No Overnight parking. The Green lines indicated allowable overnight parking, but not over 72 continuous hours. The City will revisit this ordinance soon, in July 2018

The city has designated some areas for homeless families to park safely overnight, but none are in Lincoln Heights.
